

# Bid Questions for RFQ#20210211-Custom Classification and Compensation Plan for Sumner County Government

1. Do you have a projected budget range for this project?

Our initial estimates did not include our two largest departments, the majority of the workforce. So, at this point, we are requesting proposals to determine the reasonable cost and determine what firm is most qualified—the best fit for the county.

2. Do you have a projected timeline for this project?

We hope to have the study completed as soon as possible (The goal is less than six months from the award date).

3. Must we have a valid Tennessee license as well as a Sumner County license in order to bid this RFQ or only if we are selected?

Per the RFQ, the vendor of the awarded bid will have 10 business days to submit the applicable business license to the Finance department. You can contact the Sumner County Business Tax Office (615-452-4063) for questions regarding the type of license required.

4. Can we submit the required W-9 with our proposal, or do we need to send it before we send in a proposal?

The W-9 can be submitted at the time of the proposal, it is not required to be sent in before.

5. When do you anticipate an award for this study?

We are hoping to have the bid awarded within 90 days.
