

ADA Self-Evaluation and Transition Plan - Questions to RFQ

Issued by Sumner County Government: February 24, 2020

1. Do you have a list of Sumner County buildings, sidewalks, parks, and streets, et al you can share with us?

Attached is list of county buildings and roads/sidewalk inventory sheet.

Note: For the school building locations, a number of the school buildings had recent renovations; the level of review may be less at some school locations. Board of Education will determine level of review.

2. The Sumner County Board of Education is referenced as being a part of the Development of the ADA Transition Plan.
 - a. Would you confirm that the self-evaluation for schools and their campus's services, policies, and practices are limited to its "core access" areas? "Core access," would means the core spaces would be made accessible to ensure a basic level of public access to the schools and campuses. These would include parking, the main entrance and main office, assembly areas to include auditoriums, gyms, football and baseball fields and some restrooms.
Board of Education will determine level of review as a part of the Self-Evaluation & Transition Plan.
 - b. Or in the alternative, is it anticipated that all or some schools and its campus will have "program-accessibility"? The core spaces and features of these schools would be made accessible; in addition, program accessibility would be provided to all programs and activities at the school and include not only public accessibility but access to all or some classrooms and all or some student activities.
Board of Education will determine level of review as a part of the Self-Evaluation & Transition Plan.
 - c. Or is the level of accessibility to be determined as a part of the Transition Plan and working with the Board of Education? Board of Education will determine level of review as a part of the Self-Evaluation & Transition Plan.

3. The RFQ notes review of pedestrian facilities within the public right of way, are you wanting a review of such items as bus stops, benches, etc. in the public right of way?

The Board of Education will determine the level of review for school buildings. For County, there are some benches in the park/greenway. Review the County jurisdiction for Sumner County highway department and County properties, see question 1 for inventory list for County properties. Review pedestrian signals; curb ramps, sidewalks, parking lots, transit stops, share use trails, county buildings, park and recreational facilities.

4. Are you looking for the all public right of ways to be evaluated or only those on county properties?

Review the County jurisdiction for Sumner County Highway Department and County properties. Attached is inventory list for County properties and sidewalk inventory. Review pedestrian signals, curb ramps, sidewalks, parking lots, transit stops, share use trails and greenway, county park and recreational facilities.

5. Are you looking for any county buildings and parks to be evaluated or only the public rights of ways?

Yes, county buildings and park facilities are included for the ADA Self Evaluation and Transition Plan. See inventory building list and sidewalk inventory. The Board of Education will determine the level of review for Board of Education and school buildings.

SUMNER COUNTY, TN - ADA BUILDING SURVEY

List of Site Locations and Buildings to Survey:

1. 117 W. Smith St. – Gallatin - Sumner County Jail & Court
2. 100 – Public Square –Gallatin - Courthouse
